

Online Resource 1 – Grayscale version of study area map

Paper title: A national-scale vegetation multimetric index (VMMI) as an indicator of wetland condition across the conterminous United States.

Journal: Environmental Monitoring and Assessment

Authors: Teresa K. Magee, Karen A. Blocksom, and M. Siobhan Fennessy

Corresponding author: Teresa K. Magee, U.S. Environmental Protection Agency, Office Research and Development, National Health Effects Laboratory, Western Ecology Division, Corvallis, Oregon

Online Resource 1 Grayscale version of study area map (Fig. 1 in paper). Locations of sites sampled in the 2011 National Wetland Condition Assessment (NWCA) by Aggregated Wetland Type within the four NWCA Ecoregions. Note, due to map scale and site proximity, individual sites are occasionally obscured by symbols for other sites.
