## SADI Service Discovery

## SADI services that consume KEGG\_Record

**Properties attached:**  
has motif

**getEcEncodedByKeggGenes**

Fetches the enzymes that the input KEGG genes encode (if they exist).

**Properties attached:**  
encodes

**getUniprotByKeggGene**

A service that takes kegg gene records and fetches their uniprot equivalent

**Properties attached:**  
encodes

**KEGG-Gene-to-Pathway**

Retrieves the KEGG pathways that contain the given KEGG gene(s)

**Properties attached:**  
is participant in
