

### Additional file 3. List of studies included in the review

1. ARATRAKORN, S., THUNHIKORN, S. & DONALD, P. F. 2006. Changes in bird communities following conversion of lowland forest to oil palm and rubber plantations in southern Thailand. *Bird Conservation International*, 16, 71-82.
2. AZHAR, B., LINDENMAYER, D. B., WOOD, J., FISCHER, J., MANNING, A., MCELHINNY, C. & ZAKARIA, M. 2011. The conservation value of oil palm plantation estates, smallholdings and logged peat swamp forest for birds. *Forest Ecology and Management*, 262, 2306-2315.
3. BERNARD, H., FJELDSA, J. & MOHAMED, M. 2009. A case study on the effects of disturbance and conversion of tropical lowland rain forest on the non-volant small mammals in north Borneo: Management implications. *Mammal Study*, 34, 85-96.
4. BRUHL, C. & ELTZ, T. 2010. Fuelling the biodiversity crisis: species loss of ground-dwelling forest ants in oil palm plantations in Sabah, Malaysia (Borneo). *Biodiversity and Conservation*, 19, 519-529.
5. CHANG, M. S., HUI, J., BUTTNER, P. & MANSOOR, F. 1997. Changes in abundance and behaviour of vector mosquitoes induced by land use during the development of an oil palm plantation in Sarawak. *Transactions of the Royal Society of Tropical Medicine and Hygiene*, 91, 382-386.
6. CHEY, V. K. 2006. Impacts of forest conversion on biodiversity as indicated by moths. *Malayan Nature Journal*, 57, 383-418.
7. CHUNG, A. Y. C., EGGLETON, P., SPEIGHT, M. R., HAMMOND, P. M. & CHEY, V. K. 2000. The diversity of beetle assemblages in different habitat types in Sabah, Malaysia. *Bulletin of Entomological Research*, 90, 475-496.
8. DANIELSEN, F. & HEEGAARD, M. 1995. Impact of logging and plantation development on species diversity: a case study from Sumatra. In: SANDBUKT, Ø. (ed.) *Management of tropical forests: towards an integrated perspective*. Oslo: Centre for Development and the Environment. University of Oslo.
9. DAVIS, A. L. V. & PHILIPS, T. K. 2005. Effect of deforestation on a southwest Ghana dung beetle assemblage (Coleoptera : Scarabaeidae) at the periphery of Ankasa conservation area. *Environmental Entomology*, 34, 1081-1088.
10. EDWARDS, D. P., HODGSON, J. A., HAMER, K. C., MITCHELL, S. L., AHMAD, A. H., CORNELL, S. J. & WILCOVE, D. S. 2010. Wildlife-friendly oil palm plantations fail to protect biodiversity effectively. *Conservation Letters*, 3, 236-242.
11. FAYLE, T. M., TURNER, E. C., SNADDON, J. L., CHEY, V. K., CHUNG, A. Y. C., EGGLETON, P. & FOSTER, W. A. 2010. Oil palm expansion into rain forest greatly reduces ant biodiversity in canopy, epiphytes and leaf-litter. *Basic and Applied Ecology*, 11, 337-345.

12. FUKUDA, D., TISEN, O. B., MOMOSE, K. & SAKAI, S. 2009. Bat diversity in the vegetation mosaic around a lowland dipterocarp forest of Borneo. *The Raffles bulletin of Zoology*, 57, 213-221.
13. GILLESPIE, G. R., AHMAD, E., ELAHAN, B., EVANS, A., ANCRENAZ, M., GOOSSENS, B. & SCROGGIE, M. P. 2012. Conservation of amphibians in Borneo: Relative value of secondary tropical forest and non-forest habitats. *Biological Conservation*, 152, 136-144.
14. GLOR, R., FLECKER, A., BENARD, M. & POWER, A. 2001. Lizard diversity and agricultural disturbance in a Caribbean forest landscape. *Biodiversity & Conservation*, 10, 711-723.
15. HASHIM, N. R., JUSOH, W. F. A. W. & NASIR, M. N. S. M. 2010. Ant diversity in a Peninsular Malaysian mangrove forest and oil palm plantation. *Asian Myrmecology*, 3, 5-8.
16. HASSALL, M., JONES, D. T., TAITI, S., LATIPI, Z., SUTTON, S. L. & MOHAMMED, M. 2006. Biodiversity and abundance of terrestrial isopods along a gradient of disturbance in Sabah, East Malaysia. *European Journal of Soil Biology*, 42, S197-S207.
17. JULIANI, N. S., ANUAR, M. S. S., SALMI, A. L. N., MUNIRA, A. N. & LIYANA, K. N. 2011. Diversity pattern of bats at two contrasting habitat types along Kerian River, Perak, Malaysia. *Tropical Life Sciences Research*, 22, 13-22.
18. KOH, L. P. & WILCOVE, D. S. 2008. Is oil palm agriculture really destroying tropical biodiversity? *Conservation Letters*, 1, 60-64.
19. LIOW, L. H., SODHI, N. S. & ELMQVIST, T. 2001. Bee diversity along a disturbance gradient in tropical lowland forests of south-east Asia. *Journal of Applied Ecology*, 38, 180-192.
20. LUCEY, J. M. & HILL, J. K. 2012. Spillover of insects from rain forest into adjacent oil palm plantations. *Biotropica*, 44, 368-377.
21. PEH, K. S. H., SODHI, N. S., DE JONG, J., SEKERCIOGLU, C. H., YAP, C. A. M. & LIM, S. L. H. 2006. Conservation value of degraded habitats for forest birds in southern Peninsular Malaysia. *Diversity and Distributions*, 12, 572-581.
22. ROOM, P. M. 1975. Diversity and organization of the ground foraging ant faunas of forest, grassland and tree crops in Papua New Guinea. *Australian Journal of Zoology*, 23, 71-89.
23. SHELDON, F. H., STYRING, A. & HOSNER, P. A. 2010. Bird species richness in a Bornean exotic tree plantation: A long-term perspective. *Biological Conservation*, 143, 399-407.
24. TURNER, E. C. & FOSTER, W. A. 2009. The impact of forest conversion to oil palm on arthropod abundance and biomass in Sabah, Malaysia. *Journal of Tropical Ecology*, 25, 23-30.
25. VAESSEN, T., VERWER, C., DEMIES, M., KALIANG, H. & VAN DER MEER, P. J. 2011. Comparison of termite assemblages along a landuse gradient on peat areas in Sarawak, Malaysia. *Journal of Tropical Forest Science*, 23, 196-203.
