

View / Patient Controls

TAGIGEN makes it easy to load in numerous PET, CT or Fused PET-CT studies and view them along coronal (C) or sagittal (S) planes, or fused with PET (F).

Easy Navigation

Selecting an image or study centers and zooms the views on the selection. Dragging across rows traverses all visible studies at once. Mouse wheel zooms.

Integrated Report

Physicians' reports for each selected study can be viewed inline, to help compare.
