Response:
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Impact

Question #8: Do you think the triage tool was a positive addition to the patient risk assessment process at triage?

Response:
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
**Question #9:** Do you think the triage tool improved the patient risk assessment processes at your hospital?

**Response:**

_________________________________________________________________________________

_________________________________________________________________________________

_________________________________________________________________________________

**Question #10:** Do you think the triage tool provides adequate information required to prioritize your patients?

**Response:**

_________________________________________________________________________________

_________________________________________________________________________________

_________________________________________________________________________________

**Perceived Usefulness**

**Question #11:** Did you find using the triage tool made it easier for you to identify patients who may be at higher risk and need additional attention?

**Response:**

_________________________________________________________________________________

_________________________________________________________________________________

_________________________________________________________________________________

**Question #12:** Did the triage tool enable you to identify higher risk patients more quickly?

**Response:**

_________________________________________________________________________________

_________________________________________________________________________________
Question #13: Did the triage tool make it more likely that you would identify patients who are at higher risk at triage?

Response:

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Question #14: Do you think the triage tool and standard protocols allow for a more equitable (fair) process to assess risk assessment at triage?

Response:

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Question #15: Are you satisfied with the triage tool for risk management of patients at triage?

Response:

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Question #16: Do you find that you manage patients’ assessments at triage in a timely manner because of the triage tool?

Response:

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
Question #17: Are you able to assess patient risk at triage whenever you use the triage tool?

Response: 
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Perceived Ease of Use

Question #18: Are you comfortable with your ability to use the new triage tool?

Response: 
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Question #19: Did you feel you were properly trained to use the triage tool?

Response: 
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Question #19: Was learning to use the triage tool easy for you?

Response: 
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Question #20: Was it easy for you to become skillful at using the triage tool?
Response:
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Question #21: Do you find the triage tool easy to use?
Response:
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Healthcare Worker Satisfaction

Question #22: Overall, do you feel the triage tool helped processes in the outpatient department?
Response:
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Question #23: Overall, do you think the information provided on the triage tool is clear?
Response:
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Question #24: Do you think the triage tool has improved wait times in the outpatient department?
Question #25: Do you feel that you were well trained and prepared before the triage tool was implemented in the hospital?

Response:

Question #26: Do you feel the triage tool helped healthcare workers in the OPD to better communicate with each other?

Response:

Question #27: Overall, do you think the triage tool was a positive addition to your hospital?

Response:
