Figure 2: funnel plots of comparisons of different treatments for liver-related outcomes

Funnel plot of comparison: 1 weight loss and NAS, outcome: 1.4 weight loss and NAS improvement.

Funnel plot of comparison: 3 exercise alone, outcome: 3.1 liver fat.
Funnel plot of comparison: 3 exercise alone, outcome: 3.2 ALT.

Funnel plot of comparison: 1 TZD, outcome: 1.1 steatosis.
Funnel plot of comparison: 1 TZD, outcome: 1.2 hepatocellular ballooning.
Funnel plot of comparison: 1 TZD, outcome: 1.4 inflammation.

Funnel plot of comparison: 1 TZD, outcome: 1.3 fibrosis.
Funnel plot of comparison: 1 TZD, outcome: 1.7 fibrosis improvement or stability.

Funnel plot of comparison: 1 metformin, outcome: 1.1 steatosis.
Funnel plot of comparison: 2 metformin, outcome: 2.1 inflammation.

Funnel plot of comparison: 4 metformin, outcome: 4.1 hepatocellular ballooning.
Funnel plot of comparison: 3 metformin, outcome: 3.1 fibrosis.

Funnel plot of comparison: 8 statins, outcome: 8.1 ALT.
Funnel plot of comparison: 5 PUFA, outcome: 5.1 ALT.

Funnel plot of comparison: 6 fibrates, outcome: 6.1 ALT.
Funnel plot of comparison: 1 UDCA, outcome: 1.1 steatosis.

Funnel plot of comparison: 1 UDCA, outcome: 1.2 necroinflammation.
Funnel plot of comparison: 1 UDCA, outcome: 1.4 hepatocellular ballooning.

Funnel plot of comparison: 1 UDCA, outcome: 1.3 fibrosis.
Funnel plot of comparison: 2 antioxidants, outcome: 2.1 steatosis.

Funnel plot of comparison: 2 antioxidants, outcome: 2.2 necroinflammation.
Funnel plot of comparison: 2 antioxidants, outcome: 2.4 hepatocellular ballooning.

Funnel plot of comparison: 2 antioxidants, outcome: 2.3 fibrosis
Funnel plot of comparison: 2 antioxidants, outcome: 2.5 fibrosis progression.
