Effect of *Hnrnpf* and *Hnrnpk* siRNA on respective hnRNP F and hnRNP K protein expression in RPTCs.  

**a.** Western blotting of hnRNP F in RPTCs incubated in 5 mmol/l D-glucose medium with increasing doses of either *Hnrnpf* siRNA or scrambled siRNA.  

**b.** Western blotting of hnRNP K in RPTCs incubated in 5 mmol/l D-glucose medium with increasing doses of either *Hnrnpk* siRNA or scrambled siRNA. Values are mean ± SEM.  

n=3. *p<0.05; **p<0.01; N.S., not significant. Sc, scrambled
