Supplemental Figure 1. Representations of CaM or anti-CaM induced Ca$^{2+}$ currents in pear pollen tube protoplasts.  
A. Control current; B. Treatment by 10$^{-7}$ M CaM; C. Treatment by dilution of 1:200 anti-CaM.
Supplemental Figure 2. Representations of Ca²⁺ currents in treatments of CaM and S-RNase of pollen tube tip protoplasts.
A. Treatment by incompatible S-RNase; B. Treatment by compatible S-RNase; C. Treatment by 10⁻⁷ CaM plus incompatible S-RNase.
