I hope this email finds you well!

We are currently working with Drs. Mark Pegram, Sumanta Kumar Pal, Barry Childs on the editorial finalization of a review article manuscript that they would like to submit *Breast Cancer Research and Treatment*. Currently, the word count of this manuscript is 3836; however, the journal guidelines state a limit of 3500 words, which puts the manuscript 336 words over the limit – is this acceptable? Please let me know so that we may work with the authors, as necessary.

Thank you!

Melissa
