This online appendix contains the complete set of vulnerability maps described in the main text, based on five vulnerability aspects: social, economic, environmental, physical and territorial. Each aspect is described by two maps, including an exposure map of the elements considered in the vulnerability theme and a vulnerability map showing the resulting vulnerability levels.

Refer to the main text for a detailed description of each vulnerability theme and their classifications.
Vulnerability maps

Social vulnerability
Vulnerability level
Vulnerability maps

Economic vulnerability

Exposed agricultural lands
Vulnerability maps

Economic vulnerability

Vulnerability level
Vulnerability maps

Environmental vulnerability

Exposed preserved areas and intact forests
Vulnerability maps

Environmental vulnerability

Vulnerability level
Vulnerability maps

Physical vulnerability

Exposed buildings
Vulnerability maps

Physical vulnerability
Vulnerability level
Vulnerability maps

Territorial vulnerability

Exposed communication lines
