Lin et al., Fig. 2

The graph shows the percentage of invasion for different NPC-BM strains: NPC-BM1, NPC-BM18, NPC-BM29, and NPC-BM00. The bars indicate the mean values with error bars representing the standard deviation. The p-value for the comparison between NPC-BM29 and NPC-BM00 is less than 0.05, indicated by the asterisk (*) above the bars.
