**TLR3 mRNA**

- Figure A: FEV1 % predicted vs. relative quantity (dRn) with a slope of $p = 0.035$.
- Figure B: Age (years) vs. relative quantity (dRn) with a slope of $p = 0.02$.
- Figure C: Smoking history (pack-years) vs. relative quantity (dRn) with a slope of $p = 0.65$.

**TLR3 protein**

- Figure D: FEV1 % predicted vs. TLR3 positive AMø (%) with a slope of $p = 0.03$.
- Figure E: Age (years) vs. TLR3 positive AMø (%) with a slope of $p = 0.03$.
- Figure F: Smoking history (pack-years) vs. TLR3 positive AMø (%) with a slope of $p = 0.83$.

**Legend:**
- Circles: Smoker
- Crosses: Never-smoker
