The graph shows the relationship between generations and time (in sec/gen) and space (in MB). Two lines are plotted:

- **Greedy-Load**: represented by diamonds (●●●)
- **Store-Root**: represented by crosses (++)

The x-axis represents generations ranging from 0 to 800, while the y-axis for time is on a logarithmic scale ranging from $10^{-2}$ to $10^1$ seconds per generation, and the y-axis for space is also on a logarithmic scale ranging from $10^1$ to $10^2$ megabytes.
