CGKB: Cowpea Gene Space Sequence (GSS) Knowledge Base
(Production Instance)

Cowpea Genomics and Molecular Marker Discovery

Databases
- CGMED Cowpea Metabolite Pathway Database
- CGMED Cowpea Microsatellite Database
- CGAD Cowpea Annotated GSS Database

Analysis Tools
- BlastAll Homology Search with Cowpea
- RemevalAll Sequence Retrieval
- ConsiBuilder for Homology Sequences
- CLUSTALW for Multiple Sequence Alignment

This knowledge base is developed under the Cowpea Genomics Initiative and maintained by Professor Dr. Michael P. Timko of the Department of Biology at University of Virginia.
For technical support, please email Dr. Xiaofeng Jeff Chen.
