A) Number of genes

B) Circle showing counts: 12738, 5189, 1190, 308

C) Histogram showing mean \( \omega \) for metabolic and non-metabolic genes:
- Metabolic: \( n = 1190, \mu = 0.129 \)
- Non-metabolic: \( n = 12,738, \mu = 0.152 \)

Legend:
- Total: \( n = 13,928, \mu = 0.151 \)
