Figure 2 - Examples of developmental events examined

Illustration of selected developmental events as used in this study. *Graptemys nigrinoda* (a, i), *Chelonia mydas* (b, f, g), *Emydura subglobosa* (c, h), *Lepidochelys olivacea* (d, e). Depicted elements refer to selected events as used in this study (see supplement). Embryos are of different ages and not to scale.
