A

- **21769 transcripts**
  - at least 1 probeset uniquely maps the 3' UTR
  - downstream probeset not annotated, same orientation

- **3141 transcripts**
  - both probesets have expression above noise in at least 1 array of the dataset

- **1849 transcripts**
  - Pearson correlation of expression signals > 0.6

- **922 transcripts**

---

B

- **Density Distribution**
  - Pearson correlation range from -1 to 1
  - Histograms showing density distribution for different categories.
