(a) Array

![Array data for Hspa5 and Cdkn1a expression levels with statistical significance indicated by asterisks (*) and double asterisks (**) for different genotypes.]

(b) qPCR

![qPCR data for Hspa5 and Cdkn1a expression levels with statistical significance indicated by asterisks (*) and double asterisks (**) for different genotypes.]

- **Hspa5**
  - WT
  - APP
  - APLP2

- **Cdkn1a**
  - WT
  - APP
  - APLP2

*Note: The diagram illustrates relative mRNA expression levels for each genotype and gene combination.*
