Relative number of *HeT-A* genomic copies

Number of *HeT-A* copies per actin copy

- **Oregon-R**: 20 (±5)
- **GIII**: 350 (±10)

**Graph:** Bar chart comparing the relative number of *HeT-A* genomic copies in *Oregon-R* and *GIII*. The *GIII* sample shows a significantly higher number of copies compared to *Oregon-R*.
