Level 1 (e.g., Membrane Transport)

Level 2 (e.g., ABC transporters)

Level 3 (e.g., ABC transporter iron(III)-dicitrate (TC 3.A.1.14.1))

No statistically significant enrichment

Enriched compared to both others

Depleted compared to both others

1 - Phosphorus metabolism
2 - Stress response
3 - Nucleosides and Nucleotides
4 - Membrane Transport
5 - Amino Acids and Derivatives
6 - Respiration
7 - Virulence
8 - Virulence
9 - Prophage, transposon
10 - Reductive dechlorination
11 - Ton and Tol transport systems
12 - Tn552
