The graph shows the percentage distribution of ESTs and clusters across different categories. The categories are labeled as SP, CM, PS, CR, TT, OF, and UF. The y-axis represents the percentage, ranging from 0 to 50. The x-axis lists the categories. The blue bars represent ESTs, while the red bars represent clusters. The CM category has the highest percentage for both ESTs and clusters, while the OF category has the lowest percentage for both.
