A: A Venn diagram showing the overlap between TP and NP.

B: A radar chart with various substrates and products of metabolic processes.

C: A heat map with a color scale ranging from 0.64 to -0.64.

D: A diagram of metabolic pathways, including:
- Sucrose and starch
- Glucose and GluT1,4,8
- Glucose and Glu6P
- Mannose and Fru6P
- Fructose and DHAP+GAP
- Pyruvate and lactate
- Acetyl-CoA and PDHE1-B
- Citrate, isocitrate, TCA, aconitase, NADH+FADH2, ETC, and Cox1 B13
