The graph shows the number of members per miRNA family in Populus, Rice, and Arabidopsis. Each miRNA family is represented by a bar, with different colors indicating the number of members in each species. The x-axis represents the miRNA family, and the y-axis shows the number of members per family. The data is presented for miR156/157, miR159/100, miR160, miR162, miR164, miR165/166, miR167, miR168, miR170/171, miR172, miR190, miR193, miR294, miR297, miR298, miR399, and miR529.
