**Suppl. Figure 14**
**Gene: Prl7a1 (Prlpe)**

A

![Image A](image)

B

**Prl7a1**

Prl7a1 is expressed in most, but not all, P-TGCs early in gestation, including primary P-TGCs. While Prlpe expression can be seen in P-TGCs throughout gestation, expression is significantly reduced by E14.5. In addition, SpT expression of Prlpe can be seen by E12.5, although only a subset of SpT.

Previous publications showing mouse Prl7a1 expression: (Lin et al., 1997b).
