A plot showing the base consumption, cellobiose, and L-forms over time.

- **Base consumption (ml/hr)**
- **Cellobiose (g/L)**
- **L-forms (%)**

**Time (h):**
- 55 to 115

**Base consumed (ml/hr):**
- Triangle symbol

**Cellobiose (g/L):**
- Square symbol

**L-forms (%):**
- Circle symbol

**L-forms (% total cells):**
- Curved line

Additional images labeled as B, C, and D, showing microscopic views of different stages, with annotations indicating 10 μm scales.
