Original population \( n = 808 \)

**Selection**
- All isolates with reduced susceptibility to beta-lactams not explained by beta-lactamase \( n = 190 \)

**Exclusion**
- Dead \( n = 5 \)
- Impure \( n = 2 \)
- No growth on MH-F \( n = 2 \)
- Wrong species \( n = 4 \)

**Inclusion**
- Resistant group \( n = 177 \)
- Susceptible group \( n = 19 \)

**Study isolates** \( n = 196 \)

**Denominator Clinical data** \( n = 795 \)

**Remaining isolates** \( n = 599 \)
