The image contains a gel electrophoresis pattern with bands labeled for different samples. The samples are identified by codes such as J104-L, J104-H, J166, J178, HPD-JM17, B194A, B194, A2, A3, A4, A5, A7, A8, A9, B1, B3, B5, GC3, GC5, GC6, GC9, GD1, GD2, A1, A6, B2, B4, B6, B8, B9, GC1, GC2, GC4, GC7, GC8, GD3, GD4, GD6, GD7, and GD9, along with numerical values indicating molecular weights from 500 to 13,300.
