**Figure 1:** Time course of cytokine production over 28 days.

- **TNF-α**
- **IL-1β**
- **IL-6**
- **IL-12**
- **IFN-γ**
- **CCL-2/MCP-1**

Marker legend:
- ◊ \( \Delta sigC \)
- △ Complemented mutant
- □ CDC1551

Each graph shows the concentration of cytokines (pg/ml) over time (days) with error bars indicating standard deviation. The significance levels are indicated by asterisks: *\( p < 0.05 \), **\( p < 0.01 \), ***\( p < 0.001 \).
