**A**

Diagram of the GAL1 gene showing the TATA box at position -135 and the gene start (+1) and transcription start site (+1587). The gene is transcribed from 5' to 3'.

**B**

**Histone H3**

Bar chart showing the relative histone H3 levels over time (0-90 minutes) with significant changes indicated by asterisks (*, **, ***).

**C**

Bar chart similar to **B**.

**D**

Bar chart similar to **B**.

**E**

**RNA Pol II**

Bar chart showing the relative RNA Pol II levels over time (0-90 minutes) with significant changes indicated by asterisks (*, **, ***).

**F**

Bar chart similar to **E**.

**G**

Bar chart similar to **E**.
