a) Motor and sensory recovery after sciatic nerve crush

- Toe spread reflex: p = 0.36
- Von Frey hair sensitivity: p = 0.63

b) Motor and sensory recovery after sciatic nerve crush and saphenous nerve excision

- Toe spread reflex: p = 0.5
- Von Frey hair sensitivity: p = 1.0

C) Motor and sensory recovery after sciatic nerve cut and reanastomosis

- Toe spread reflex: p = 0.06
- Von Frey hair sensitivity: p = 0.18
