HEt-positive DA neurons with edaravone-administration

**Graph:**
- X-axis: Time (min) 0, 10, 20, 30
- Y-axis: HEt-positive cells/10,000mm²

**Legend:**
- Solid line: Controls (untreated)
- Dotted line: Edaravone-administered group

**Images:**
- Panels a, b, c, d show fluorescence images of HEt-positive DA neurons.

**Note:**
- * indicates statistically significant differences compared to controls.
