Figure 1 **Trial Profile** after Fleischmann E, Lenhardt R, Kurz A et al 2005

- 418 enrolled in Fleischmann (2005)
  - 4 misplaced documents
  - 414 randomized
    - 208 assigned to nitrous oxide group
      - 2 withdrawn (surgical complications)
      - 206 completed follow-up
      - 206 studied in Fleischmann (2005)
        - 205 completed follow-up
          - 1 withdrawn (attending physician request)
          - 202 studied in Fleischmann (2005)
            - 207 completed follow-up
              - 3 withdrawn (exclusion criterion present)
              - 95 not treated for colorectal cancer or cancer not found at study surgery or study surgery was for locoregional recurrence
              - 107 reached final analysis
    - 206 assigned to nitrogen group
      - 109 not treated for colorectal cancer or cancer not found at study surgery or study surgery was for locoregional recurrence
      - 97 reached final analysis
