Figure 3: Flow 2, from abstract acceptance to subsequent publication. Meeting characteristics associated with full publication.

- **Year (median 1992)**
  - Logrank test: $\chi^2 = 93.0$ (1df), $p < 0.0001$

- **Country**
  - Logrank test: $\chi^2 = 76.1$ (2df), $p < 0.0001$
  - § Australia, Belgium, Canada, Croatia, France, Germany, Greece, Ireland, Japan, Mexico, Netherlands, Spain, UK

- **Size**
  - Logrank test: $\chi^2 = 60.9$ (1df), $p < 0.0001$
  - *Large (small) meetings have > (≤) abstracts than the median number (109) of abstracts for all meetings*

- **Speciality**
  - Logrank test: $\chi^2 = 76.1$ (2df), $p < 0.0001$
  - ‡ Only specialities with ≥15 meetings are included

- **Paediatrics**
- **Surgery**
- **Anaesthesia and Emergency Medicine**
