The GPs willing to participate (n=57) were computer-randomised

Assessed for eligibility (n=360)

Excluded (n=0)
Refused (n=303)

Allocated to intervention (n=28)

Received allocated intervention (n=23)
Did not receive allocated intervention (n=5)
Withdrawed due to work overload

Lost to follow-up 1 and 2 (n=1)
Withdrawed due to work overload

GP included patients (n=133)
3 pairs of evaluation score-sheets were not available or had missing items

Analysed
- Baseline analyses and longitudinal analyses (n=23)
- T1 and T2 (n=22)
- Evaluation score-sheets analyses (n=130 GP score-sheets + n=130 patient score-sheets)

Allocated to the control group (n=29)

Lost to follow-up 1 (n=2)
1 due to own sickness absence
1 unknown reason

Lost to follow-up 2 (n=3)
1 due to moving out of the country
2 unknown reasons

Analysed
- Baseline analyses and longitudinal analyses (n=29)
- T1 (n=27)
- T2 (n=26)
