Figure 4

(A) Correlation between BI-1 expression in CH and Bax expression in CH.

(B) Correlation between BI-1 expression in HCV-related CH and Bax expression in HCV-related CH.

(C) Correlation between BI-1 HCV-genotype 1-related CH and Bax expression in HCV-genotype 1-related CH.

Correlation coefficients and p-values:

- Figure 4A: $r = 0.518$, $P = 0.0007$
- Figure 4B: $r = 0.591$, $P = 0.0005$
- Figure 4C: $r = 0.685$, $P = 0.0017$
