Stages Procedures / flow chart

Screening N ≤ 575

Recruitment, T0-Baseline (week 0) N = 175

Randomisation

ELL group N = 88
10 weeks with 12 sessions
errorless learning

TEL group N = 87
10 weeks with 12 sessions
trial and error learning

T1-Follow-up (week 11) N = 88

T2-Follow-up (week 16) N = 80

2 weeks with 3 refresher sessions
errorless learning (week 19-20)

T3-Follow-up (week 26) N = 73

T1-Follow-up (week 11) N = 87

T2-Follow-up (week 16) N = 80

2 weeks with 3 refresher sessions
trial and error learning (week 19-20)

21 months
study phase

primary endpoint

2 weeks with 3 refresher sessions
errorless learning (week 19-20)

5 months
analysis and implementation

• Data cleaning, final entry control and analysis of data
• Writing and submission of scientific papers
• Completion of guideline and seminar concept for practitioners

ELL=Errorless Learning; TEL=Trial and Error Learning
