Figure 4: OPTIC Conceptual Model

Case Mix Adjustment

Determinants (Independent Variables)

- System Cost of Transitions
- Resident Level Characteristics & Factors
- Organizational Factors
- Geographic Factors
- Organizational Contextual Factors

Outcomes

- Unsuccessful Transitions Avoided

- Transition Success
  - Safety
  - Resident Focused
  - Timeliness
  - Effectiveness
  - Efficiency
  - Equitability

OPTIC Quality Indicators

All transitions will be analyzed, with shading indicating additional analyses for a subset of included NH.
