rs6726395 SNP

- G/G + G/A
- A/A

Annual decline in FEV₁ (mL/year)

- Never-smoker: NS
- Ex- & current-smoker: p = 0.010

p for interaction = 0.011

Ex- & current-smoker group shows a significantly greater annual decline in FEV₁ compared to the never-smoker group, with a p-value of 0.010. There is no significant difference between the G/G + G/A and A/A genotypes within each smoking status group, as indicated by the NS result for the never-smoker group.
