**STEP 1:**
Data collection and application of inclusion and exclusion criteria

**STEP 2:**
Determination of headache group:
Did you have two or more headaches in the last 3 months?

**STEP 3:**
Determination of probability of migraine type headache: preliminary questions
1. Do you have headaches that limit your ability to work, study or enjoy life?
2. Do you want to talk to your healthcare professional about your headaches?

**STEP 4:**
Determination of migraine type headache:
Ask the three items of ID-Migraine test:
During the last 3 months, did you have the following with your headaches?
1. You felt nauseated or sick to your stomach
2. Light bothered you (a lot more than when you don’t have headaches)
3. Your headaches limited your ability to work, study or do what you needed to do for at least one day

If answer is YES to at least two of the questions:
DIAGNOSE AS MIGRAINE HEADACHE

If answer is NO to at least two of the questions:
DIAGNOSE AS NON-MIGRAINOUS HEADACHE

Inconsistent data and unsuitability to inclusion criteria:
EXCLUDE FROM THE STUDY

Consistent data and suitability to inclusion criteria:
GO TO STEP 2

If YES
GO TO STEP 3

If answer is YES to at least one of the questions:
GO TO STEP 4

If NO
EXCLUDE FROM HEADACHE GROUP

If answer is NO to both of the questions:
Probably not migraine headache
