a) Control, Exosomes, exosomes, rHSP90

b) Graph showing the percentage of round cells with a shape coefficient distribution. The x-axis represents the shape coefficient, and the y-axis represents the percentage of round cells. The graph shows a decrease in the percentage of round cells with increasing shape coefficient.

Less round cells

Shape Coefficient

0 0.1 0.2 0.3 0.4 0.5 0.6 0.7 0.8 0.9 1 1.1 1.2 1.3 1.4 1.5

% Cells Rounder Than

100 80 60 40 20 0

Control, Exosomes, rHSP90

Larger Than

c) Graph showing the percentage of larger cells with cell area distribution. The x-axis represents the cell area, and the y-axis represents the percentage of larger cells. The graph shows an increase in the percentage of larger cells with increasing cell area.

Larger cells

Cell Area

0 2000 4000 6000 8000 10000

% Cells Larger Than

100 80 60 40 20 0

Control, Exosomes, rHSP90
