A. CD26 and α-Tubulin levels in HCT-116 and HCT-15 cells over 7 days.

B. Graphs showing the relative protein levels of CD26 in HCT-116 and HCT-15 cells.

C. Graphs showing the relative mRNA levels of CD26 in HCT-116 and HCT-15 cells.

D. Fluorescence images of cells stained with CD26-specific antibody.
