Fig 1 – Algorithm for the screening and follow up of SSPW and RMW

HPV testing

- pos
  - HPV typing
    - neg
      - Cytology
        - neg
          - Repeat HPV testing & cytology at 3y
          - Repeat Cytology & colposcopy every 6 m & HPV testing every 12 m
        - Repeat HPV testing & cytology at 12m
        - pos
          - Histology
            - neg
              - Colposcopy
              - pos
                - Repeat HPV testing & cytology at 6 m
            - pos
              - Appropriate treatment
              - pos

- neg
  - Cytology
    - ≥ASCUS
      - Colposcopy
      - ≥ASCUS
        - Repeat HPV testing & cytology at 3y
      - neg
        - Repeat HPV testing & cytology at 6 m
    - neg
      - Return to screening every 3 y
