Figure A: Graph showing changes in T1 (msec) over days 0 and 5 for Vehicle and Everolimus groups.

Figure B: Graph showing the percentage change in T1 at day 5 for Vehicle and Everolimus groups, with a T/C ratio of 0.81.

Figure C: Graph showing BioL at day 6 for Vehicle and Everolimus groups, with a T/C ratio of 0.31.

Figure D: Graph showing the correlation between BioL at day 6 and ΔT1 at day 5, with a correlation coefficient of r = 0.54 and p = 0.030.
