Q38) Would you visit a pediatrician in order to prevent any potential complications of your child's Upper Respiratory Tract Infection?

Q37) Do you think that you are worried about your child's health more than other parents do?

Q36) Would you visit a pediatrician if your child suffers just from runny nose?

Q35) Would you request an antibiotic prescription if your child suffers from frequent Upper Respiratory Tract Infections?

Q34) Do you think that most of the Upper Respiratory Tract Infections (i.e. flu, cold, ear infection) resolve without antibiotic administration because they are self-limited?

Q33) Do you think that parents and pediatricians should be informed about judicious antibiotic use?

Q32) Would you reuse any leftover antibiotics whenever your child presents with similar symptoms of a URTI (i.e. sore throat, flu, cold)?

Q31) Would you change your pediatrician because whenever you visit him/her, he/she keeps prescribing antibiotics?

Q30) Would you change your pediatrician because of not prescribing as many antibiotics as you think he/she should?

Q29) Do you believe that antibiotics are used too much and unnecessarily?
