PROXIMAL INFLUENCES

 Evidence-Based Strategies
 - Physical Environment
   - Alcohol outlet density
   - Street lighting
   - Tobacco advertising ban

 Intermediate Outcomes
 - Traffic crashes
 - Injury

 Peer Influences
 - After-school program that promotes personal and social skills
 - School bonding

 Specific to children or adolescents:
 - Bullying

 School Influences
 - Quality preschool & early childhood education
 - School-based efforts to reduce bullying

 Specific to children or adolescents:
 - School bonding

 Evidence-Based Strategies
 - Social Cohesion
   - Worksite diversity programs
   - Mentoring programs
   - Neighborhood watch

 Intermediate Outcomes
 - Managerial placement of women and Blacks
 - Enhanced psychosocial work environment

 Evidence-Based Strategies
 - Income & Resources
   - Worksite diversity programs
   - Mentoring programs
   - Neighborhood watch

 Intermediate Outcomes
 - Employee health
 - Injury

 Intermediate Outcomes
 - Employee turnover
 - Poverty

 Specific to children or adolescents:
 - Health insurance enrollment

 Physical Health
 - Access to affordable quality childcare
 - Home visiting program
 - Home safety education

 Specific to children or adolescents:
 - Functioning smoke alarm

 Evidence-Based Strategies
 - Family Influences
   - Alcohol advertising
   - Street lighting
   - Tobacco advertising ban

 Intermediate Outcomes
 - Traffic crashes
 - Managerial placement of women and Blacks

 Evidence-Based Strategies
 - Parental involvement in child's education
 - Volunteer tutor program

 Specific to children or adolescents:
 - Positive mother behavior
 - Poison number accessibility
 - Proper storage of hazards
 - Use of socket covers

 PRIMARY OUTCOMES

 Evidence-Based Strategies
 - Cognitive Development
   - After-school program that promotes personal and social skills
   - School-based efforts to reduce bullying

 Specific to children or adolescents:
 - School bonding

 Evidence-Based Strategies
 - Social & Emotional Competence
   - High school graduation
   - HIV/AIDS education

 Specific to children or adolescents:
 - Positive self-perceptions

 Evidence-Based Strategies
 - Absence of Psychological & Behavioral Problems
   - Worksite diversity programs
   - Mentoring programs
   - Neighborhood watch

 Specific to children or adolescents:
 - Conduct disorder, depression

 Evidence-Based Strategies
 - Income & Resources
   - Worksite diversity programs
   - Mentoring programs
   - Neighborhood watch

 Intermediate Outcomes
 - Employee health
 - Injury

 Intermediate Outcomes
 - Employee turnover
 - Poverty

 Specific to children or adolescents:
