Allocated to Mental Health First Aid
7 clusters of size, 12, 30, 57, 35, 16, 33, 38.
176 individuals received 1 day training, and 43 received 2 day training.
Did not receive allocated intervention
0 clusters, 2 individuals (completed only baseline questionnaire and included in the study).

Lost to follow-up (no follow-up interviews)
27 individuals (included in study), 0 clusters.

Analysed
7 clusters, 221 individuals.

Allocated to wait-list
7 clusters of size, 15, 7, 28, 18, 10, 8, and 20.

Lost to follow-up (no follow-up interviews)
4 individuals (included in study), 0 clusters.

Analysed
7 clusters, 106 individuals.

Excluded: 2 clusters (27 wait-list individuals and 12 intervention individuals), 57 individuals did not complete the baseline questionnaire.

1 These clusters were excluded because they did not participate in their randomised allocation to wait-list and intervention groups.
