Not willing further screening \( n=74 \) (40.2%)  
No risk status \( n=42 \) (40.8%)  
Willing further screening \( n=103 \) (56.0%)  
Screening offered \( n=2536 \)  
Known with an anxiety disorder \( n=43 \)  
Exclusion \( n=39 \)  
Target population \( n=2454 \)  
Implicit refusers \( n=1169 \) (47.6%)  
Explicit refusers \( n=861 \) (35.1%)  
Total refusers \( n=2064 \) (82.7%)  
Under cut-off score \( n=240 \) (56.6%)  
Above cut-off score \( n=184 \) (43.4%)  
Cannot be reached \( n=7 \) (3.8%)  
Not willing further screening \( n=74 \) (40.2%)  
Anxiety disorder present \( n=30 \) (29.1%)  
No risk status \( n=42 \) (40.8%)  
Risk status \( n=31 \) (30.1%)  
Panic attack \( n=6 \)  
Depression \( n=19 \)  
History anxiety disorder and low mastery \( n=1 \)  
Multiple risk factors \( n=5 \)  
Motivated for an intervention \( n=12 \) (38.7%)  
Not motivated for an intervention \( n=12 \) (38.7%)  
Receiving mental health treatment \( n=7 \) (22.6%)  
Explicit refusers \( n=424 \) (17.3%)
