**Positive Approach:**
- Benefits of LAIs
- Success stories of other patients

**Punitive Approach:**
- Address compliance problems
- Scare tactics/threats

**Therapy introduced via:**
- Patient response
- HCP responds to patient resistance
- Patient acceptance

**Patient response**
- Favorable
- Neutral
- Resistant/Concerned

**HCP responds to patient resistance**
- Step may be skipped if resistance is not expressed
- Emphasize benefits of LAIs
- Decompose resistance
- Abandon discussion*

**Patient acceptance**
- Prescriber selects the specific LAI without patient or caregiver input
- Patient accepts LAI therapy
- Patient does not accept LAI therapy

---

*Ideal conversation path | LAI initiation barrier*
