The bar chart depicts the percentage of individuals in different age groups and sexes across various districts in Tanzania. The districts include Kigoma, Kilombero, Rufiji, Ulanga, and All districts.

- **Age group 10 – 14**: The percentage is consistent across districts with a slight variation in each.
- **Age group 15 – 19**: Similar to the 10 – 14 group, the percentage is relatively stable across districts.
- **Female**: The chart shows a higher percentage in Rufiji compared to other districts.
- **Male**: Rufiji again shows a higher percentage compared to other districts.

Each district is represented by a different color and pattern, allowing for easy comparison across regions.
