Eligible patients (n=891)

Patients recruited (n=233)

Patients randomized (n=208)

Intervention (n=119)
  Took group visit sessions (n=119)
    Lost to follow-up at 12 months (n=21) because:
    • moved out (n=10)
    • died (n=3)
    • refused (n=2)
    • unknown (n=6)
    Completed 12-month follow-up visit (n=98)

Control (n=89)
  Received usual care (n=89)
    Lost to follow-up at 12 months (n=11) because:
    • moved out (n=4)
    • died (n=2)
    • refused (n=3)
    • unknown (n=2)
    Completed 12-month follow-up visit (n=78)
